

**NORDIC
LED-POWER**
HOHE LEUCHTKRAFT MIT LED

EASY CONNECT
smart energy-efficient lighting made easy

HIGH PERFORMANCE

Powered by Nordic LED-Power tubes for optimal brightness and energy efficiency

Money-saving

Replace the light source, not the entire fixture.

Powerful

Sufficient light boosting productivity.

Energy-efficient

Maximize savings with 160 lm/W efficiency.

Easy installation

Quick setup with through-wiring and connectors.

Change the light source, not the entire fixture

Easy Connect is LED fixture with replaceable light source.

The luminaire is designed to be compatible with T8 LED light sources, an industry standard that makes it easy and cost-effective to upgrade or change light sources when needed. This also gives the flexibility to always have access to the latest technology without having to replace the entire system. The luminaire comes equipped with high-efficiency T8 LED tubes, ensuring powerful and reliable lighting right from the start.

5
YEARS
WARRANTY

Save time and money:

- Easy light source replacement without having to change the entire luminaire, reducing both costs and labor time.

Powerful but soft light:

- Provides 40% more light than average luminaires, perfect for offices and environments with high ceilings.

Compatible with T8 LED light sources:

- For easy upgrades and lower maintenance costs.

Time-saving installation:

The luminaire comes with ready-made cable glands and connectors for quick and easy installation.

Reduce your energy costs:

- With advanced LED technology that saves both energy and money.

3-wire Push Connector

INSTALLATION INSTRUCTIONS

SAFETY FIRST

- Turn off power at the breaker before installation.
- Certified electricians must install this fixture with protective gloves.
- Suitable for indoor or damp locations only.
- Test one unit before full installation to ensure functionality.

Installation Steps:

- ① Power Off: Ensure the power is off at the breaker.
- ② Mount Base: Attach the fixture's base securely to the ceiling or wall using appropriate screws or fasteners.
- ③ Connect Wiring: Feed wires through the fixture's hole and connect live (L), neutral (N), and ground (G) wires.
- ④ Secure Fixture: Fasten the fixture to the base, ensuring all screws are tightened properly.
- ⑤ Attach Lens: Secure the lens cover, ensuring it is aligned and locked.
- ⑥ Restore Power: Switch on the power and test the fixture for proper operation.
